How to insert a RSS feed into a page

1. Login to Mahara and click the ‘Portfolio’ tab.

2. Select a page for editing by clicking its edit button ( ).

3. Select the ‘Edit content’. From the ‘External content’ tab, select the ‘External Feed’ block and drag it to the bottom area.

4. In the Configuration screen, input the name of your feed in the ‘Block Title’.

5. Input the URL of the RSS feed in the ‘Feed location’ (e.g. Local Weather Forecast: http://rss.weather.gov.hk/rss/LocalWeatherForecast.xml)

6. Select the number of feed items to show and check whether to show feed items in full.
7. Click ‘Save’ to finish.
