How to upload a video to YouTube and embed it in Mahara

Introduction

Due to the limitation of storage space in Mahara (up to 250 MB per user), you are recommended to upload your video to YouTube and then embed the YouTube video in Mahara.

Uploading a video to YouTube

1. Create a YouTube account if you do not have a Google account.

2. Login YouTube using your Google username and password.

3. Upload your video to YouTube.
4. Make your uploaded video “unlisted” and copy its link.
