Using ePortfolio for assessment and reflection

This workshop will introduce the development and use of electronic portfolios (ePortfolio) as part of an outcome-based approach to curriculum design and assessment. ePortfolios provide students with opportunities to undertake reflection, demonstrate critical thinking and present their knowledge using a variety of media. Topics covered include:

- Using ePortfolios to assist students to write and reflect (and include media)
- Creating and marking Mahara ePortfolio assignments in Moodle

Managing your research sources using Zotero

This workshop will provide an introduction to Zotero, a free Web-based bibliography management system. Zotero is regarded as the next-generation research tool which can help you to collect, organize, cite and share your research sources. Topics covered include:

- Capturing bibliographic information from the Internet
- Organizing and annotating your bibliographic items
- Creating customized bibliographies in standard citation styles

Using Moodle Workshop activity to support peer assessment

This workshop will discuss how to use and manage Moodle Workshop activity. The Moodle Workshop activity is a peer assessment activity which enables participants to submit and assess each other’s work in a convenient way. It can also help teachers to collect and distribute these assessments. Topics covered include:

- Setting up a Moodle Workshop activity
- Editing instructions and assessment form
- Allocating submissions for peer assessment
- Calculating grades for submission and assessment
